Training in Physics

**This training is
free!**

Department
for Education

What is TSST in Physics?

- ✓ It is designed to improve the physics subject knowledge of **non-specialist teachers by offering school-led teacher subject specialism training**. It would suit **non-specialist teachers** who could potentially teach physics in addition to their main subject and also for **teachers who wish to re-train or extend their current experience to teaching physics**.
- ✓ It provides **support to teachers wishing to return to the profession** through access to subject specialism training in a key curriculum area.

Physics content

- ✓ Modules would include: **Electricity, Electromagnetism, Force and Motion, Waves, Electromagnetic waves, Matter, Atomic Structure, Astrophysics - updated for the science 2018 curriculum.**
- ✓ Sessions include physics content, science practicals and also '**pedagogical content knowledge**'.

Delivery

- ✓ The training will be **extensive, running from November 2019 to June 2020.**
- ✓ Delivered at **St Bede's Lanchester, DH7 0RD**
- ✓ We will offer a 'blended' learning experience:
 - **12 Twilight sessions** of high quality instruction, facilitated by outstanding facilitators
 - **E-Learning** provided by the '**Centre for Innovation in Maths and Physics Teaching**' at Plymouth University with Masters Level credits - worth £910.

Our launch event and initial twilight session will take place in October 2019

Please note, to gain accreditation for this course there is a minimum requirement for participants to attend the sessions and also to pass on-line tests.

Please register via our website: www.stbedes-tsa.co.uk
